

Flex Databases Modules Overview

Flex Databases is a company providing e-solutions for clinical trials. Software provided by Flex Databases helps making the processes of conducting clinical trials and managing pharma, biotech and CRO seamless and controlled. It means more effective data processing, less time required for managing data, avoiding mistakes in reports generation, endless reporting capabilities and KPI tracking.

Flex Databases platform is easily customizable, any client's requirement may be configured, it distinguishes us from many other companies. The range of modules offered by Flex Databases is very wide and covers all processes within R&D company. By choosing Flex Databases our clients win a solid, reliable IT vendor with fast feedback, flexible approach and constant client support with a focus on quality.

We offer a unique platform which allows combining traditional features related to management of clinical trials (CTMS, EDC&IWRS) with the functionality for running internal pharma companies and CRO processes as well as a capability to manage financial data, invoicing and expenses. All modules developed by Flex Databases are validated and 21 CFR Part 11 compliant.

Investigators & Sites Management

Investigators & Sites Management Module helps organizing all information on investigators, sites, vendors, therapeutic areas, IRB/LECs, etc. It provides easy search capability for feasibility assessments and other needs.

Main Features and Advantages

- Feasibility process
- Site team assignment
- Site performance
- Capturing and tracking of all site communication
- Centralized IRB/LEC submissions and approval tracking
- Documents tracking (contracts, site regulatory documents, licenses and certificates)
- Investigators information (contact information, CV, experience, studies, therapeutic areas)
- Sites information (address, accreditation certificates, study team, structure, studies)
- Hospitals and out-patient clinics (addresses, description, equipment, capacity)
- Vendor information (address, pricing, services)
- Regulatory Authorities information (address, contact person, key information)
- Reports

Keep all sites and investigators related information in one organized place.
