Workflow Management	Subject Tracking & Invoicing	Time Sheets & Utilization	Learning Management System

Flex Databases is a software development company. We develop e-Clinical systems for CROs and pharmaceutical companies.

Our platform consists of 12 modules that cover every aspect of clinical trials, from project startup to pharmacovigilance. We offer both single modules and a unified solution to maintain all processes - you can cover all existing software needs with only one vendor.

All modules developed by Flex Databases are validated and compliant with 21 CFR Part 11 and other global regulations. We provide flexible and configurable baseline system versions with free updates, perform customizations and development for client-specific needs.

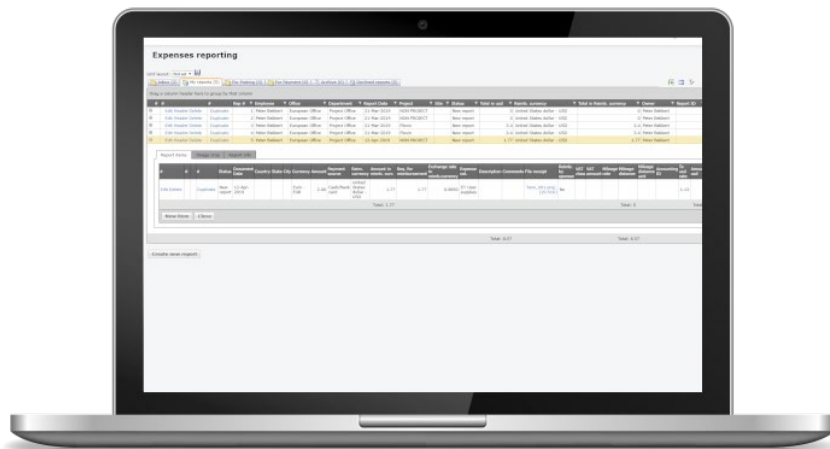

Unlike traditional e-Systems developer, Flex Databases provides a combination of flexibility, fair prices, and go-the-extra-mile service and support.

Expense Reporting

Manage your project related expenses effectively. Avoid belated payments with highly customizable and comprehensive Expense Reporting Module.

Main features and advantages

- Project-based expense management
- The project list from the Project Management Module is used; no need to manually set up projects on the system
- Automatic management of exchange rates and foreign currency expenses from external websites without user intervention
- Expense tracking by item
- Combined receipts scanning. Upload and attach receipt images made on mobile devices or scanners.
- Approval process, reporting and automated alerts fully customizable according to your organization's processes
- Possibility to create complicated approval workflow
- Integration with all common accounting packages, allowing to feed the data straight into your organization's finance department for payment processing
- Cash management
- Office expenses
- Ad-hoc reporting tool for cross-project and cross-module reporting (graphs, widgets)
