Workflow Management	Subject Tracking & Invoicing	Time Sheets & Utilization	Learning Management System

Flex Databases is a software development company. We develop e-Clinical systems for CROs and pharmaceutical companies.

Our platform consists of 12 modules that cover every aspect of clinical trials, from project startup to pharmacovigilance. We offer both single modules and a unified solution to maintain all processes - you can cover all existing software needs with only one vendor.

All modules developed by Flex Databases are validated and compliant with 21 CFR Part 11 and other global regulations. We provide flexible and configurable baseline system versions with free updates, perform customizations and development for client-specific needs.

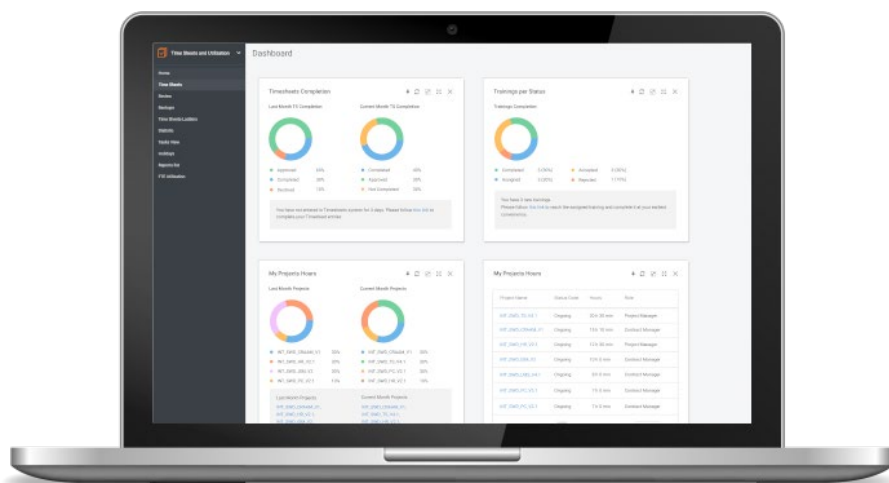

Unlike traditional e-Systems developer, Flex Databases provides a combination of flexibility, fair prices, and go-the-extra-mile service and support.

Time Sheets & Utilization

Use Flex Databases Time Sheets & Utilization Module to report, plan and review company time resources effectively. Track workload statistics and FTE utilization.

Main features and advantages

- Easy data entry (calendar and table view, copying, last used tasks)
- Time sheets applicable for project and non-project activities
- Easy to monitor and approve time of employees according line and project subordination
- Planned versus actual FTE (Full-Time equivalent) tracking
- Endless reporting capabilities including reports on in- and out-of-scope activities
- Hiring planning based on FTE
- All reports and statistics you need including overall company review
- Backups
- Adjustable set of project and non-project tasks
- Integration with Project Management and Budgeting module
- Country-specific holidays and working week settings
- Ad-hoc reporting tool for cross-project and cross-module reporting (graphs, widgets)
