Workflow Management	Subject Tracking & Invoicing	Time Sheets & Utilization	Learning Management System

Flex Databases is a software development company. We develop e-Clinical systems for CROs and pharmaceutical companies.

Our platform consists of 12 modules that cover every aspect of clinical trials, from project startup to pharmacovigilance. We offer both single modules and a unified solution to maintain all processes - you can cover all existing software needs with only one vendor.

All modules developed by Flex Databases are validated and compliant with 21 CFR Part 11 and other global regulations. We provide flexible and configurable baseline system versions with free updates, perform customizations and development for client-specific needs.

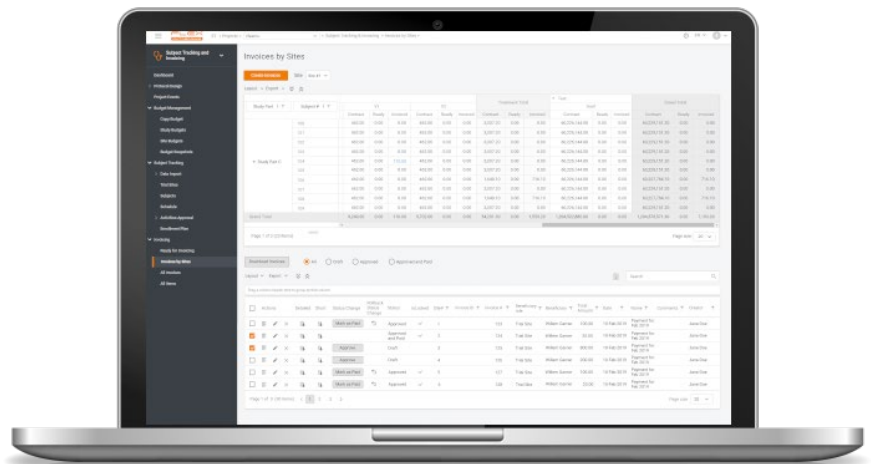

Unlike traditional e-Systems developer, Flex Databases provides a combination of flexibility, fair prices, and go-the-extra-mile service and support.

Subject Tracking & Invoicing

Use Subject Tracking & Invoicing Module to track all patients' data and manage invoicing online. Plan and schedule patient visits efficiently.

Main features and advantages

Study and Site Budget Management

- Create study and multi-currency site budgets
- Invoice based on various triggers: visit, procedures, milestones, etc.
- Set up any payment rules with overhead percentage, cost and extra cost reductions
- Keep different site budget versions and invoice according to specific version
- Copy budget template to speed up trial set-up
- Export and report any data on invoicing into sites

What is Going on in My Site?

- Track non-visit related activities (PTC management)
- Track unscheduled visits and procedures
- Manage open queries resolution

Invoicing

- Get overall reports on ready to be invoiced, approved and paid activities
- Generate invoices & beneficiaries on configurable client-specific or ready-to-use templates
- Track invoices status
- Void or approve invoices online

Enrollment and Patient Tracking

- Plan enrollment and compare with the real picture
- Plan and schedule patients visits
- Track all patient related data
- Import data from your EDC system or add subjects manually

Subject Tracking & Invoicing

Benefits

Financial Accountability & Transparency

With the ability to track and export all investigator records on payments, you'll have all the data needed to report on payments into sites and see the real picture. No more multiple systems and spreadsheets to report and reconcile!

Payment Process Speed-Up

With automated invoice generation based on data from EDC, you can create invoices right after site work is complete.

Sites are Happy and Engaged

Enhance your site relationships with quick on-time payments with no delays or errors. Hassle-free payments to sites are an advantage for both sponsors and CROs.

Endless Scalability

You control sites budgets and all the budgets rules on any level. It's no longer just study or country specific. Use site and budget version specific invoicing.
