About Flex Databases

We develop a comprehensive clinical trial management solution since 2011.

- **10+ years** on the market
- **4 offices** in the US, Europe, and Asia
- **All-in-one platform** from study planning to safety database

What sets us apart

Easy implementation

Full compliance

Complete data safety

Flexible solution

- System implementation in **3 to 10 weeks**
- A robust **backup & disaster recovery and data protection strategy**, including distributed data storages around the world
- All major **international and local regulations** covered, including FDA 21 CFR Part 11, GDPR, etc.
- Reports, workflows, trackers are **under user configuration**. Web-based solution, no installation required

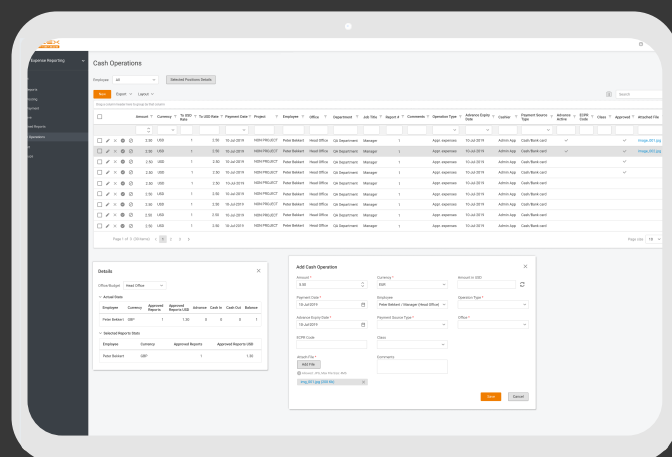

Some of our clients

Leading CROs, pharma, and biotech

Expense Reporting

- Report all passthrough expenses and receipts, receive and approve reports from the team in one place.
- Export to finance systems is available as well as exports to provide to sponsors, clients, stakeholders.

Expense management

- Expense reports based on PTC tasks in any of the projects from the Project Management and Budgeting module
- Expense Reports based on non-project activity
- Automatic management of exchange rates and foreign currency expenses from external websites
- Detailing expense reports by item
- Uploading images of receipts made on mobile devices or scanners

Approval workflow

- Approval process with automatic notification of required users
- Ability to decline both the entire report and the specific item separately
- Quick setup of user backup: selection of a specific user and the backup period
- Flexible configuration of roles and access to the approval stage

Data export

- Creation and export of accounting, analytical, and PTC billing reports
- Integration with the accounting package QuickBooks to transfer data directly to the financial department of your organization for payments processing
- Exporting data for building a PTC expense report in the Project Management and Budgeting module
